

H&O Equipments Quality Policy

H&O Equipments stands - above all - for the trust that our customers have in the well-known precision and the pioneering potential of our company. Our instruments have been and still are being created through a close co-operation between the users from all over the world. For this purpose H&O Equipments sets up and applies a dedicated market feedback system, to gain experiences from the market.

The companies' quality certification and the product approvals in different jurisdictions, demonstrate safety and trust and the quality of our instruments. We are committed to comply with the quality, regulatory and statutory requirements and maintain an effective quality system. Our quality objectives are determined to maintain conformity.

With highly motivated specialized personnel, we are able to successfully master the balancing act between a traditional family way of thinking and future-oriented modernity. Our facilities are equipped with state-of-the-art tools and machinery.

Willing customers can also be involved in new developments in collaboration with H&O Equipments.
